

What is Sushi?

SUSHI: Sushi is rice seasoned with salt, sugar and vinegar. It comes in many different varieties. Sushi is the general word for any dish that comes with vinegared rice. Maki and nigizushi are sushi, nigiri and omusubi are not.

SASHIMI: Raw fish with no rice. Sashimi can also be raw meat, chicken, tofu skin or even vegetables (as long as they are served raw).

Health Advisory: The Washoe County District Health Department advises that eating raw, undercooked animal foods, or animal foods that are not otherwise processed to eliminate pathogens, pose a potential health risk to everyone, especially the elderly, young children under the age of 4 years, pregnant women, and other highly susceptible individuals with compromised immune systems. Thorough cooking or processing of foods to eliminate pathogens reduces risk of illness.

Consuming raw or undercooked meats, poultry, seafood, shellfish or eggs may increase your risk of foodborne illness

Please note: **We reserve the right to charge extra if excess rice and sushi are left over. Some items offered in limited quantities with all you can eat. We appreciate your understanding. Thank you!**
